

COMPANY INFO

SUBPAC is sound you can Feel. A revolutionary audio technology company, SUBPAC is bringing the Feeling of music and sound to the world. A new category of audio hardware, our Physical-Sound® technology profoundly enhances the traditional media experience by allowing users to actually FEEL sound throughout their body. SUBPAC is used by DJ's and musicians, gamers, virtual reality developers, film aficionados and pro athletes. All of them looking to add an extra layer of visceral impact and immersion to the art forms that inspire them. Partners include music super producer Timbaland, NBA stars Carmelo Anthony and Kyrie Irving, Google tech legend Andy Rubin alongside many other renowned innovators in culture and technology.

WHAT IS SUBPAC

SUBPAC is a transformative wearable audio technology that unlocks the power of sound.

Already used by thousands of leading creators, the SUBPAC is one of the most trusted production and audio monitoring tools available.

Music, games, VR, and film, are all supercharged by SUBPAC enhanced sound waves pulsing through your body, all silent to the outside world.

A deeper and more accurate connection to music, faster reaction times in gaming, completing the VR experience by immersing your body in the action.

Simple 1/8 inch or Bluetooth audio connection. Innovative 'plug & play' design allows for studio, stage, in-home or active use, with any sound source.

PRODUCT DESCRIPTION

SUBPAC is a transformative wearable audio technology that converts sound into high fidelity vibrations you can feel. Sound pulses through your body turning Music, Gaming & VR into a fully immersive experience.

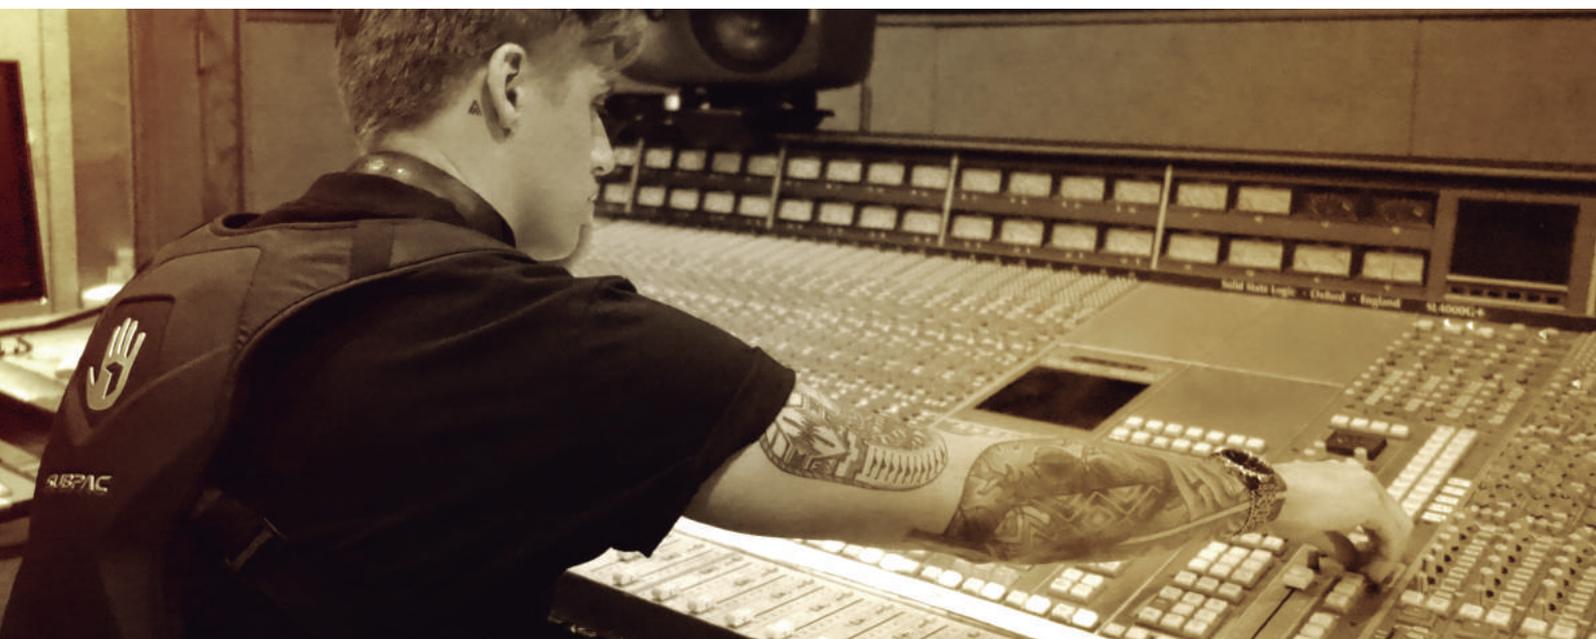

A TRANSFORMATIVE EXPERIENCE

SUBPAC immerses you in sound through proprietary technology and vibrotactile materials that comfortably contours to your body. SUBPAC is high fidelity audio, giving you the most immersive personal media experience, everywhere.

DESIGNED FOR PROFESSIONALS, MADE FOR YOU

SUBPAC is used by thousands of audio and VR professionals to add a heightened level of immersion, impact and awareness. Partners include many world-class music producers including Timbaland, Google tech legend Andy Rubin, NBA stars Kyrie Irving and Carmelo Anthony.

Wearable Audio Technology You Can Feel

SUBPAC is the missing link between just hearing, and being fully immersed in sound, and is silent to the outside world.

Create Music with Feeling

SUBPAC is a trusted production & audio monitoring tool that gives you a deeper, highly accurate connection to your creation. Our testimonials speak for themselves.

Feel Virtual Reality

An integral part of every VR setup, SUBPAC delivers the full-body immersion VR demands, bringing your body into the virtual realm in a truly immersive and impactful way.
