mobility innovated.

Innovation

By the unique principle the interaction with the environment is very easy.

- ✓ Completely free front side activity.
- ✓ Easy sitting down in walking direction.
- ✓ Easy standing up out of high position.
- ✓ Ideally usable for walking during sitting.
- ✓ Easy steerable by large wheels with ball bearings.

Function

Developed together with experts, the ergoPrimo guarantees a maximum of advantages for the daily use.

- ✓ Very simple overcoming of obstacles.
- ✓ Easy steering, also single-handed.
- ✓ Supports the upright walking.
- ✓ Ergonomic, height adjustable handles.
- ✓ Simple, intuitive folding mechanism.

Accessories

As standard the ergoPrimo is equipped with a very practical cane holder, a spacious, click-on bag with reflectors and a comfortable detachable back rest.

As option for special applications, an additional anti-tilt safety device is available:
