

Transatlantic Silver Glider

The newest Generation of Transfer Boards

Silver Glider M (67 cm)
Article-No. 4500414

Silver Glider L (85 cm)
Article-No. 4500415

The Silver Gliders M and L have been developed by experienced practitioners, and proven reliable and effective for many years. The Transfer Boards' smooth surface minimizes frictional resistance, whilst the anti-slip patches prevent the patient from sliding off the boards during their transfer.

Benefits

- Easy handling due to bigger handgrip
- Utterly hygienic due to smooth surface
- Easy disinfection with all common cleaning agents
- Easy transfer from wheelchair – bed – car
- Subtle and discreet design
- Carrying capacity of up to 180 kg
- Barely visible anti-slip patches, yet very durable and of improved quality. They are easily exchangeable without any residue.

Easy handling due to bigger handgrip.

Beveled edge for a comfortable transfer.

Utterly hygienic due to smooth surface.

Barely visible and very durable anti-slip patches.

ADD-ONS

Sit-On Sliding Cover

Article-No. 4410521

The Sit-On Sliding Cover supports the gliding properties of the Silver Glider and facilitates the transfer of bare skin.
